

SAN DIEGO RIVER CONSERVANCY

Tentative RESOLUTION 05-07

***SDSU 2005 Campus Master Plan Revision, Draft Environmental
Impact Report / Proposed Adobe Falls Development***

The Governing Board of the San Diego River Conservancy hereby authorizes the Executive Officer to prepare comprehensive comments on the *SDSU 2005 Campus Master Plan Revision* Draft Environmental Impact Report (EIR) including the proposed residential development on the north side of Highway 8, surrounding the Adobe Falls portion of Alvarado Creek near its confluence with the San Diego River. The Governing Board further (1) recommends the conduct of an area-wide hydrology assessment prior to development activities; and (2) authorizes the Executive Officer to work with appropriate parties to take immediate actions to preserve the remains of the small Adobe Falls Dam, flume, and waterworks believed to be present on site.

Additionally, should the Conservancy's comments not be addressed in the Final Environmental Impact Report and Response to Comments due to timeline constraints, the Executive Officer is also directed to forward the Conservancy's comments directly to the Board of Trustees of California State University to ensure the Trustees have the information needed to make an informed decision.

I, Deborah S. Jayne, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of a Resolution adopted by the San Diego River Conservancy on April 8, 2005.

Deborah S. Jayne
Executive Officer
